

Samuel Mbiya

Mail: samuelkmbiya@gmail.com | [Linkedin](#) | [Github](#) | [Website](#)

PROFILE

- Working as a junior engineer, in the Digital Electronic Warfare research group at the Council for Scientific and Industrial Research (CSIR), on exciting problems in Electronic Support Measures (ESM) and Electronic Intelligence (ELINT)
- Graduated with a Bachelor's degree in Electrical and Computer Engineering from the University of Cape Town.
- Interested in research and development (R&D) work in Embedded Systems, Artificial Intelligence, Radar, Electronic Defence, and Sensor and Data Fusion.
- Passionate about engineering, technology and entrepreneurship.
- Willing to relocate

SKILLS

Personal:

Self-motivation, Problem-solving and resourcefulness, Teamwork, Leadership, Communication, Fast-learner

Technical:

Programming Languages - Python, Matlab, Java, Julia, C/C++, Verilog

Software development tools - Git, Github, VS Code, Jupyter Lab/Notebook, Linux CLI

Electronics - Soldering, Breadboard prototyping, Circuit design (with LTSpice), Microcontroller programming

Spoken Languages:

English (Fluent), French (Professional working proficiency)

EDUCATION

BScEng in Electrical and Computer Engineering

University of Cape Town

Feb. 2018 – Dec. 2022

Cape Town, South Africa

- Focus areas of coursework: Embedded Systems, Signal Processing, Computer Science, Electronics, Engineering design

Self-Driving Cars Specialisation

University of Toronto

Aug. 2022 – present

Online/Coursera

- This is an ongoing course that I've enrolled in due to my interest in autonomous vehicles. The course is helping me develop skills and knowledge in Autonomous vehicle technology. The course covers an Introduction to Self-Driving Cars, State Estimation and Localisation for Self-Driving Cars, Visual Perception and Motion Planning

PROFESSIONAL REGISTRATION

Candidate Engineer

Engineering Council of South Africa (ECSA)

May 2023 – present

South Africa

WORK EXPERIENCE

Junior Signal Analyst

Council for Scientific and Industrial Research (CSIR)

Jul. 2023 – present

Pretoria, South Africa

- Working on Electronic Warfare Support Measures (ESM) research and software development (Matlab) in the Digital Electronic Warfare Research Group at the CSIR.

Graduate (Signal Analyst) in Training

Council for Scientific and Industrial Research (CSIR)

Nov. 2022 – Jul. 2023

Pretoria, South Africa

- Working on Electronic Warfare Support Measures (ESM) research and software development (Matlab) in the Digital Electronic Warfare Research Group at the CSIR.

Tutor: Electrical Engineering Design Principles (EEE3088F)

University of Cape Town - Department of Electrical Engineering

Feb. 2022 – Nov. 2022

Cape Town, South Africa

- Involved marking tests, assignments and project submissions
- Involved mentoring 4 teams throughout their course project, which involved designing and fabricating an environment sensing expansion board (HAT) for the STM32 discovery board.

- Students were exposed to circuit board design using KiCAD 6.0 and collaborative tools for version control and documentation such as Git and Github

Vacation work student

Nov. 2021 – Feb. 2022

Council for Scientific and Industrial Research (CSIR)

Pretoria, South Africa

- Worked in the Defense and Security Unit: Digital Electronic Warfare Research Group
- Involved benchmarking the performance of deep learning models for a classification problem in Electronic Warfare Support Measures (ESM), using Python (together with TensorFlow and PyTorch) and Julia (together with MLJFLux and Flux)
- Gained practical experience in applied Machine Learning (Deep Learning)

Vacation work student

July 2021

Council for Scientific and Industrial Research (CSIR)

Pretoria, South Africa

- Worked in the Defense and Security Unit: Digital Electronic Warfare Research Group
- Involved an investigation on the use of deep learning models for a classification problem in Electronic Warfare Support Measures (ESM), using Julia and Julia ML packages (MLJFLux and Flux)
- Gained practical experience in applied Machine Learning (Deep Learning)

Vacation work student

Dec. 2019

Council for Scientific and Industrial Research (CSIR)

Pretoria, South Africa

- Worked in the Defense and Security Unit: Digital Electronic Warfare Research Group
- Involved writing a script using Python and OpenCV for the segmentation and extraction of spectrogram images
- Gained practical experience and was exposed to concepts in Radar, Electronic Warfare and Computer Vision

Vacation work student

Jun. 2019 – Jul. 2019

Council for Scientific and Industrial Research (CSIR)

Pretoria, South Africa

- Worked in the Next Gen. Enterprises and Institutions Unit
- Involved working in a team on the design and development of workplace peer review web application using a modern web development stack and collaboration tools, such as ReactJS, SQL, Github and Trello
- Exposed to web development and agile software development; performed the role of scrum master, facilitating weekly stand-up meetings

VOLUNTEER EXPERIENCE

Faculty Mentor

Mar. 2021 – Dec. 2021

University of Cape Town - Department of Electrical Engineering

Cape Town, South Africa

- Part of the Dept. of Electrical Engineering First Years Mentorship Team
- Involved providing mentorship to a group of 3 first year Electrical Engineering students, through advice and resources to enable them to successfully navigate through their first year of engineering studies at university

Technical Mentor

Oct. 2020 – Oct. 2021

Google Developers Student Club UCT

Cape Town, South Africa

- Ideation and planning of hackathons, together with the Core DSC-UCT Committee
- Providing technical support for DSC-UCT hosted hackathons
- Facilitated a progress report session, during the 2021 DSC-UCTxYOCO Hackathon

Residence Mentor

Oct. 2018 – Oct. 2019

University of Cape Town - Leo Marquard Hall

Cape Town, South Africa

- Part of the 2019 Leo Marquard Hall Mentorship Team
- Helped incoming first year students, through advice and guidance to enable them to easily navigate through their first year of university

Logistics Coordinator

Oct. 2018 – May 2019

TeachOut

Cape Town, South Africa

- Communicated with teachers and educators to set up tutoring sessions at different schools and youth centres
- Organised transport for tutors to go to tutoring sessions

Tutor

Aug. 2018 – Oct. 2018

TeachOut

Cape Town, South Africa

- Tutored highschool learners, Maths and Science, in less privileged learning centres and schools in and around Phillipi community in Cape Town, South Africa
